# Success with variety of size and complexity of projects

## Taylor'd to your scale and requirements

Taylor Fence Co. projects range from highly-secured US military bases to residential communities that must balance privacy with convenient access.

### TEMPORARY FENCING FAST

Olgoonik Construction had an urgent need for temporary fencing in a hurry. It was a project on Peterson Air Force Base that was holding up training and was about to hold up out-of-state contractors. A quick call to Taylor got the temporary fencing needed in short order and kept training and contracting right on schedule.

### CONFIDENTIAL CONSTRUCTION

International contracting company, DPR Construction, needed fencing specialists on a confidential Data Center project at Buckley Air Force Base. They turned to Taylor Fence Co. Not only did Taylor have the qualifications and staffing to handle this secure military project, they also shined in their area of expertise.

***“They definitely know their craft and know their specific scope of work. They brought a lot of intelligence regarding some of the more technical aspects of the fence.”***

| KYLE COTTER, PROJECT ENGINEER, DPR CONSTRUCTION
